LAND SALE SUCCESSFUL.

Forty-Seven Building Lots Sold at Auto-Crest Yesterday.

One of the most successful land sales held in Barre or vicinity for some time was carried out at Auto-Crest park yesterday forenoon and afternoon. At the opening sale, nearly 100 people were present and by afternoon this number was easily doubled. The sale was conducted by the D. A. Perry Real Estate agency and C. F. Smith acted as auctioneer. During the day as many as forty-seven building lots were sold, many of them to prospective builders. Of the Auto-Crest area, a total of 126 lots have been parceled out to builders and investors since that tract was first opened up. Owing to the unprecedented demand for lots yesterday, the company has decided not to hold a sale to-morrow.

Throughout the day, caterers employed by the land developers served the crowds with lemonade, ice cream and cigars. Nifty little packages of confectionery were passed out to the ladies and young people. One of the drawing cards of the day was the distribution of free gold and the following buyers were among the fortunate ones to profit by the company's generosity: Charles Emerson, Mrs. William F. Smith, George Stone, George Simonds, Mrs. Brogini and Mrs. Frank Canales. Free building lots in desirable locations went to the following persons: George Simonds, Mrs. W. F. Smith, Mrs. Frank Canales, Carlo Ermoli and John C. Vercoe. It was the first all-day sale that the company has held and the lots offered yesterday went higher than at any of the previous sales. At least five of yesterday's purchasers have signified their intentions of erecting houses on the Auto-Crest area during the present season, and there is a strong likelihood that the advent of winter will see a large number of dwellings ready for occupancy.

WHEELER FAMILY REUNION.

Held at Dewey Park With Unusually Large Attendance.

The annual reunion of the Wheeler family was held at Dewey park Saturday afternoon, June 29. The weather being ideal for an outing, the attendance was unusually large. At noon, tables were set in the pavilion and the usual amount of good things was in evidence. A program, consisting of instrumental and vocal music and recitations, followed dinner. Rev. B. F. Wheeler added to the interest in the program by reading a history of the first Wheeler settlers in Vermont. The remainder of the day was spent in renewing old acquaintances and a general good time. As the shadows began to lengthen, each made his way homeward, hoping that all present and some who were unavoidably detained might be together next year, when Rev. B. F. Wheeler and Miss Myrtle Wheeler will have charge. Through The Times, the present committee, consisting of Mr. and Mrs. Demore, wish to thank all who helped to make the day one to be long remembered.

BEN WILSON AT EAST BARRE.

Gave Very Interesting Address and Educational Talk.

On Wednesday Ben Wilson, the noted Socialist lecturer, gave a very interesting and educational talk at East Barre on the most interesting subject that is before the people of this or any other country to-day. Being a close student of economics and widely traveled, he was able to handle his subject to a high standard of proficiency. Such intellectual feasts come seldom East Barre way, and those who missed hearing him missed an educational bath, which is one of the healthiest plunges a community could indulge in. Comrade Wilson made claims on a large vote in November for the Socialist party. Comrade Wilson left for Mount Pleasant, Mass., on the midnight train, where he was met by a speaker at a large outdoor picnic on the Fourth, arranged by the socialist party of that place.

Finger Bitten by Horse.

The little daughter of Mr. and Mrs. Herman Allen of Beckley hill figured in a peculiar accident at the driving park yesterday afternoon, when a horse nipped the end of her little finger on the right hand. The horse was one of several tethered to the fence skirting the track, and as the child stooped to pluck a blade of grass, the animal ceased his browsing for a moment and began munching on the finger. Attracted by the cries of the girl, the owner of the outfit ran to the wagon and yanked the horse's head. The Allen child was taken to the office of Dr. John H. Woodruff, where the injured finger was dressed. The physician found that the skin had been cracked by the horse's teeth, and the nail crushed at the roots, although the bone was not affected.

The efforts of the Barre & Montpelier Traction company to lend their aid to the safe and sane fourth were greatly appreciated by the nervous element yesterday. The custom for years has been to place the small dynamite caps, used in the canes, on the tracks of the company, and as the cars passed over them causing a terrific noise. The services of a special policeman yesterday were drafted. He stood on the fender, with a broom in each hand and swept the tracks clear of the caps.
